

Swiss narrow gauge – Rhaetian Railway

RhB – Standard coaches EW IV, 2nd class, B 2491 - 2497

Prototype:

In the nineties, RhB had lots of travelers, but only ancient coaches. 16 new coaches were bought. They come from PA Schindler, Altenrhein, who made similar coaches for other railway-companies too. It is the 4th generation of new vehicles and got the abbreviation EW IV (Einheitswagen IV).

The doors close automatically and the high roof makes these coaches look different from the older ones. The B 2491 - 2497 were set in motion in autumn 1992.

They are about 2 metres shorter as the normal coaches, because of the tight curves on the Bernina-line. Since 2002 they are coloured red and every day to be seen as part of the Bernina-Express.
