

Swiss narrow gauge – Rhaetian Railway

RhB – Box car Gak-v 5420

Prototype:

Until 1970 RhB uses two-axled covered boxcars only.

In 1970 RhB started with its first four-axled sliding-door- and standard-boxcars.

In 1980 a second order was done. The new wagons had a central door and are used for cargo domicile-traffic and for baggage-transports between Chur and the Engadine.

The Gak-v 5420 was set in motion on 26.04.1979. The capacity is at 26,0t.

The wagon was originally painted white/red and advertised "Kuoni Transporte", now it has brown-doors with a white RhB-sign. You will find it all over the RhB-track.
