

Swiss narrow gauge – Rhaetian Railway

RhB – Standard coaches EW IV, 2nd class, B 2391 – 2393

www.n-schmalspur.de

Prototype:

In the nineties, RhB had lots of travellers, but only ancient coaches. 16 new coaches were bought. They come from PA Schindler, Altenrhein, who made similar coaches for other railway-companies too. It is the 4th generation of new vehicles and got the abbreviation EW IV (Einheitswagen IV).

The doors close automatically and the high roof makes these coaches look different from the older ones.

The B 2391 - 2393 were set in motion in summer 1993. They are about 2 metres longer as the shorter coaches used on the Bernina-line.

They are coloured red and every day to be seen as part of rolling stock of Rhaetian railway.
