At International Toy Fair the german importer from Kato models NOCH announced, that they will start in this year with two new advertising locos.

We have ordered a small series at once. They are delivered now.

This are the two versions actually:

Ge4/4III 644 Lazzarini KT-051.3N/Nm

Art.-Nr./item-no./produit-no.

We offer this item for track N and Nm.

The models have been printed by Kato in Japan. If there is another series of the same kind in the future is not known at the moment.

We deliver these advertising-locos from NOCH as long as we can get some. It is not planned, to redesign the standard loco.

As soon as this special NOCH-series is sold out, all unimplemented orders will be cancelled.

We make delivery exactly in chronological order. First come, first served!

Ge4/4III 641 Heidiland KT-054.1N/Nm

Art.-Nr./item-no./produit-no.

We offer this item for track N and Nm.

Ge4/4III 644 - Lazzarini KT-051.3N / KT-051.3Nm

Art.-Nr./item-no./produit-no.

This item is the same type, as we had as novelty in 2015. (Currently sold out - delivery in 2015)

Ge4/4III 641 - Heidiland Bernina Express KT-054.1N / KT-054.1Nm

Art.-Nr./item-no./produit-no.

In difference to the other advertizing-models from AB-Modell, this version is available as plastic-item in 1:150 only. If there is enough demand, we could offer the same design for our handcrafted nickel-silver loco in exact 1:160-scale for the future too. If you are interested, please send us a short eMail.

Thank you.

We offer both special versions of NOCH-company as track-N-model in the variations „unchanged“ and „with hand grab rails“. As long as we have in stock, you can order two or six panorama-coaches from Glacier Express-set extra, which is delivered in the Kato-boxes.

Beside the N-loco, we offer track-Nm-models too. These locos get the hand grab rails automatically. We add the Kato-shortcouplers. The narrow gauge locos could be updated to complete sets with the panorama-coaches from Glacier Express too. The regauging of these coaches to Nm causes extra costs.

These novelties are not mentioned in our newsletter, that's why we deliver them successive. When there is space in our schedule, they will be produced and delivered, but not in the first quarter!

Delivery as long as it is in stock, only!
