

Newsletter 2014

Dear friends of N-scale narrow gauge,

On International Toy Fair in Nuremberg we showed different new items. The former coaches of Rhaetian railway have not been released yet. We will start production in December 2014. The still missing freight cars Gbk-v in red-brown and M' in grey will be finished in January 2015. All information and prices are to be found in this newsletter.

Have much fun with it.

Yours

AB-Modell-Team

Prototype:

Former Bernina-railway ordered in 1908 two axled coaches with six windows for the second and the third class. Totally 10 vehicles were delivered and got the lettering BC 101 - 110. Third class had wooden seatings, second class with red pillows.

In 1926 and 1936 three of them were rebuilt into single class coaches and got a new lettering scheme. Seven mixed-class coaches remained.

With the fusion of Bernina- and Rhaetian railway the colour-scheme changed 1942 into green-ivory first and from 1956 into green livery. When the third class was cancelled, the coaches were renumbered from BC to AB without any change at the interior.

In the 1970ies these coaches were set out of motion. Some of them stayed as MOW-cars for several years on the track of RhB, others were sold or disassembled.

The 1974 into a Xk 9086 rebuild and 1996 to museum-railway of Misox given BC 110 was in a spectacular work the BC 110 in original colours of Bernina railway, done by the enthusiasts of Club 1889. Today this vehicle is often to be found in historic trains of RhB.
