

Novelties Announcement 2021 novelties from Kato

Dear friends of the Rhaetian Railway, shortly before the original deadline for this year's toy fair, Noch has presented its new products for this year. Among them are two models for the fans of the Swiss narrow gauge railways. I hope you enjoy reading.

Yours
AB-Modell-team

Conversion to Narrow

Of course, the possibility of re-gauging the models could not yet be tested and is based on the assumption that the models are technically unchanged. We reserve the right not to re-gauge or to do so only under changed conditions if the construction of the chassis has changed significantly.

Thank you for your understanding.

KT-013.1N: RhB - vierachsiger Gepäckwagen mit großem Tor, DS 4223, Kato-Modell für Spur N

RhB DS4223 Luggage Car KT-013.1N/Nm

Art.-Nr./item-no./produit-no.

Luggage car with large middle gate on each car side N gauge, optionally also available for Nm

Hardly any train composition can do without luggage wagons, as they are used to transport bicycles and luggage for passengers. The wagon is usually placed at the end of the train or directly behind the locomotive. The D4223 is part of a series of 8 cars that went into service in 1980.

Our photo shows, as does the NOCH novelty sheet, the car in its original state of delivery. The text names the model as DS 4223, which is a rebuilt vehicle, where - as the most visible element of the rebuild - an additional pantograph was mounted on the roof.

Let's be surprised which model will be realised. In any case, the prototype selection offers the possibility of number and type variants.

Deliveries

Kato has announced its models for 2021 without specifying the date.

We will keep all pre-orderers informed about the availability of their models via email.

Prices

As in the past, we have adopted the recommended retail price of the German general importer with rounded down figures, so that this already results in a small price advantage of up to 4% compared to the RRP.

If we can achieve a further reduction for you when purchasing, we will pass this on to you.

features	price/item-#
RhB - Ge4/4III 650 UNESCO, track N, Kato-model, N-standard couplings	EUR 129,- KT-005.31N
