

Novelties Delivery 2021er Novelties from Kato

Dear friends of the Rhaetian Railway,
Kato announced the RhB novelties for 2021 in autumn 2020. The models have now arrived with us and are available at short notice.
You can find all the info in today's newsletter.
Yours
AB-Modell-Team

RhB ABe8/12 3508 Allegra KT-007.4N/Nm

Art.-Nr./item-no./produit-no.

Dual voltage multiple unit of the type Allegra
new vehicle number 3508
available as N-gauge model as standard
we also offer it as a re-gauged narrow gauge vehicle

KT-007.4N: RhB ABe8/12 3508, Kato-Modell für Spur N (9mm)

Re-Gauging

All models correspond to the usual Kato construction scheme and can be re-gauged to 6.5mm N narrow gauge. We need some time for this work. Thank you for your understanding.

KT-009.4N: RhB Bernina Express-Set mit 3 Panoramawagen 1xA 2xB, Spur N (9mm), Kato-Modell

RhB Bernina Express-Startset KT-009.4N/Nm

Art.-Nr./item-no./produit-no.

3-piece panorama car set of the Bernina Line with large Bernina Express logo
Api1301, Bps2512 and Bp2522
N gauge, optionally also available for Nm

KT-009.5N: RhB Bernina Express-Set mit 3 Panorama- und offener Aussichtswagen, Spur N (9mm), Kato-Mod.

RhB BEX-AddOn-Set KT-009.5N/Nm

Art.-Nr./item-no./produit-no.

3-piece panorama car set of the Bernina Line with large Bernina Express logo plus open observation car
Api1302, Bp2525 and Bp2526 plus B2096
N gauge, optionally also available for Nm

The New Bernina Express

In December 2017, the Rhaetian Railway started to cover the panorama cars on the Bernina Line with red coloured foil. In this context, the carriages also received a newly created, large Bernina Express logo, as some of the vehicles already had at the beginning of the BEX.

Kato is now implementing this change in brand identity with its new product announcement for 2021. Another vehicle number will be added to the Allegra fleet, which should please collectors. The panorama cars with the modern BEX logo are a very attractive eye-catcher, both in the prototype and in the model.

Occasionally, open observation cars are added to the trains, which offer a special travel experience in the fresh air. The open observation cars are also used in the Rail-Rider (Albula valley) or in the Rhine gorge and can run on the Bernina line as well as on the entire regular network. For the model railway enthusiast, they are a welcome addition to the rolling stock fleet and can even be found on goods trains when the vehicles are moved from one location to another.

KT-012.1N: RhB - zweiachsiger, offener Aussichtswagen, Bp 2097, Kato-Modell für Spur N

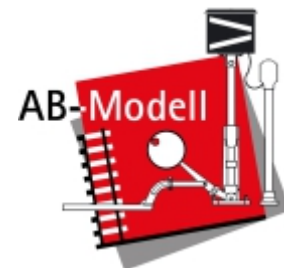

RhB Open Observation Car KT-012.1N/Nm

Art.-Nr./item-no./produit-no.

open observation car, as typically found on the Bernina line
B2097
N gauge, optionally also available for Nm

Novelties Delivery 2021er Novelties from Kato

Our Own Models

With the Kato announcement, we have taken our redecorated panorama cars with item numbers KT-009.2N/Nm out of the programme. Still available are the matching decals to convert your own panorama cars at a reasonable price (KT-111.1 / KT-111.2).

Open Observation Car

The open observation cars are inscribed on one side in German with "Aussichtswagen". The second side has either the Italian (Carrozza panoramica) or Rhaeto-Romanic (Vagun panoramic) address as the designation. The wagon included in the set and the wagon available separately each have different letterings. Depending on demand, it is conceivable to offer the other car numbers as decals. If you are interested, please contact us. Due to our limited production capacities, we do not offer ready-decorated models at present.

Couplers

Kato has equipped its models ex works with the in-house close coupling. A conversion to the N standard coupling is possible, but only the single open observation car comes with a corresponding coupling pair.

Our converted models are generally equipped with the Kato close coupling.

Deliveries

Kato has delivered its models in Japan in January 2021, as announced. With the usual delay due to shipping, customs clearance and distribution to the dealers, the models are now also available in Germany. We currently have the pre-ordered rolling stock sets and single cars. Further requirements are covered by the German general importer NOCH. The availability depends on the stock of the importer. We will keep all pre-orderers informed about the availability of their models via email.

Prices

As in the past, we have adopted the recommended retail price of the German general importer with rounded down figures, so that this already results in a small price advantage of up to 5% compared to the RRP.

For all pre-orderers - orders received by 15.01.2021 - we grant an additional early bird discount of 3% on our prices listed in the right-hand column.

Package

Kato delivers all models in the usual cardboard/styrofoam or plastic boxes. The exception is the Bernina Express add-on set KT-009.5N/Nm, which is delivered in the large Kato book box. There is room in it to accommodate the three-piece basic set as well.

| features | price/item-# |
|--|--------------------------|
| RhB - Allegra ABe8/12 3508, track N, Kato-model, incl. buffers w/o function, Kato-close couplers included | EUR 189,-- KT-007.4N |
