

Novelties Delivery N-Track Novelties are in Stock

Dear friends of Swiss railways,
as already announced, we would like to present to you the other novelties of the N-Track company. Today we are dealing with the topic of overhead contact lines. Have fun reading

Catenary

N-Track had already announced last year that it was working on a new overhead line. This is now available from stock and we have already delivered the first orders.

Particularly pleasing is the fact that a historic catenary can now also be set up, which should especially delight Era III fans. The new lighting options are an additional highlight.

Sommerfeldt-compatible

The previous catenary programme is adapted to the 2x2mm H-profile masts of the Sommerfeldt company. On the basis of the two standard masts with 53 and 70mm height very exemplary masts can be built by the fine attachments. Modern outriggers, crossbeams, supply lines, mast transformer and much more.

This programme will be maintained in its entirety as long as there is demand for it.

The components of the overhead line programme, which is compatible with the Sommerfeldt masts, are listed under the item numbers Nm-Y000xx. We have changed our kits, which complement the previous N-Track programme, to article numbers Nm-Y009xx in order to avoid number overlaps. Components that were not listed under the aforementioned article group can now be found under Nm-Y99xxx, for example the Sommerfeldt masts and insulators, as well as our decal set.

Finescale

The new masts are now 1.5x1.5mm, i.e. 25% slimmer, and come very close to the prototype. They are now available under the name "Finescale".

A threaded screw with nut ensures the correct stand on the track. The base is 3D-printed. The threaded rod is inserted from below and the H-profile from above and glued in place.

Most of the components that you already know from the Sommerfeldt-compatible programme are also available in finescale version. N-Track has implemented a whole series of innovations. For example, the crossbar is no longer open at the bottom, but is formed into an exemplary rectangle, which is good for the appearance and stability. Mostly fine insulators are included.

The modern finescale catenary is available under the article group Nm-Y001xx.

H-Profile-Mast

Nm-Y00161

Art.-Nr./item-no./produit-no.

finescale-version, 1,5x1,5mm, incl. socket and screw for designing a modern overhead catenary system

Bracket, straight

Nm-Y00112

Art.-Nr./item-no./produit-no.

finescale-version

for designing a modern overhead catenary system

Crossbars

Nm-Y00112

Art.-Nr./item-no./produit-no.

finescale-version, 98mm long

for designing a modern overhead catenary system

Mast Transformer

Nm-Y00172

Art.-Nr./item-no./produit-no.

finescale-version

for designing a modern overhead catenary system

We present only a small selection of the modern overhead line programme here.

Finescale, historic

The historical catenary is a completely new construction and is listed as item group Nm-Y002xx.

The basis is an etched kit for a lattice mast and a cross support, as well as various add-on parts. This catenary was used from about 1950 on and could be found partly until the 2000s. In Scuol-Tarasp, the last of the old catenary masts were replaced only with the total reconstruction of the track system in 2009.

Our photo of Scuol station on 19.07.2005 shows a mix of historic (in the foreground) and modern catenary masts (in the background).

As the above picture impressively shows, lattice and H-profile masts are used mixed on the historic overhead line.

Former Crossbar Nm-Y00235

Art.-Nr./item-no./produit-no.

Kit for a historical cross-span structure without masts, including insulators different construction variants possible

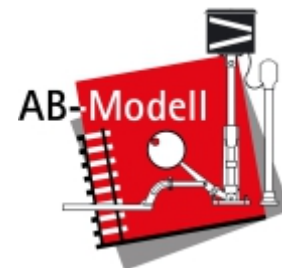

Nm-Y00235: altes Quertragwerk für finescale-Oberleitung, ohne Masten, verschiedene Aufbauvarianten, Bausatz

The kit of the historical crossbeam is only offered in one length, so that four tracks can be spanned without any problems.

There are markings in the etched part to shorten the component, so that further construction possibilities are also given. Thus, a kit can be built either four-track or three-track. Alternatively, two double-track structures can be built. The lattice masts presented on this page can be used as masts (corresponds to the large picture above). But also the H-profile masts from the finescale series can be used (small picture above right) or a mix of both.

The kit is complete including insulators. The supporting cables are led over the crossbar structure, the brackets for the transverse insulators are included as well as those for the track holders, so that no additional material is needed apart from the masts.

If you prefer the H-profile masts and want to mount a cross rope instead of the individual track holders, you will also need the component Nm-Y00119 - Holder for catenary, cross rope or fixed point, 10 pcs.

- Montagebeispiel -

Nm-Y00261:
Gittermast (1,2x1,8mm),
60mm hoch, inkl. Sockel und
Schraube, 1 St., Bausatz

Lattice Mast Nm-Y00261 / Nm-Y00262

Art.-Nr./item-no./produit-no.

Etched kit lattice mast complete with base and screw/nut

two versions available:

Nm-Y00261 = 60mm high

Nm-Y00262 = 70mm high

dimensions 1,2x1,8mm for use with the historical catenary

The basis for the construction of an overhead line modelled on the 2nd half of the last century are these fine lattice masts, which are available in two lengths.

Contact Line Holder Nm-Y00265

Art.-Nr./item-no./produit-no.

Catenary contact line holder, kit, 6 pieces suitable for lattice masts Nm-Y00261 and Nm-Y00262 including insulators for mounting in the crossbars or as a line mast

- Montagebeispiel -

Nm-Y00265: Fahrleitungshalter für finescale-Oberleitung, nur für Gittermasten geeignet, 6 St., Bausatz

The catenary holders are glued or soldered to the lattice masts, the insulators are plugged into the holding eyes.

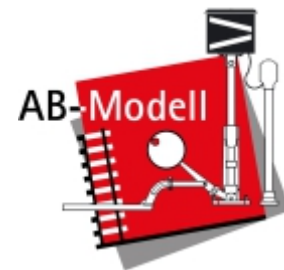

The straight and curved types Nm-Y00111 and Nm-Y00112 are suitable as cantilevers, but also our single cantilever Nm-Y00930.

With these, you must adapt the mounting clamp to the lattice masts, as they are originally intended for the H-profiles.

We publish current prices and delivery dates on our website.

To keep up to date, we recommend that you subscribe to our newsletter.

Novelties Delivery N-Track Novelties are in Stock

Illumination

New in the programme are kits for lighting the masts and supporting structures. Of these, types Nm-Y00179 and Nm-Y00279 can be used not only on finescale masts but also on Sommerfeldt counterparts.

Modern Tracklamp

Nm-Y00179

Art.-Nr./item-no./produit-no.

Nickel silver etched kit with two rectangular lights can be mounted on the mast or on the crossbeam suitable for both finescale and Sommerfeldt incl. white LEDs and matching series resistors

Nm-Y00179: Gleisfeldleuchte, für H-Profilmasten oder Tragwerk, finescale oder Sommerfeldt, 2 St., Bausatz

Historical Tracklamp

Nm-Y00279

Art.-Nr./item-no./produit-no.

Nickel silver etched kit with two round lights in a ring can be mounted on the mast or on a crossbar suitable for finescale as well as Sommerfeldt incl. warm white LEDs and matching series resistors

Nm-Y00279: alte Oberleitungsleuchte für finescale und Sommerfeldt, inkl. LEDs/Vorwiderstände, 2 St., Bausatz

Nm-Y00280: Mastleuchte, für finescale Gittermasten, inkl. LEDs und Vorwiderst., 2 St., Bausatz

Historical Mastlamp

Nm-Y00279

Art.-Nr./item-no./produit-no.

Nickel silver etching kit with two old mast lights in the ring can only be mounted on fine-scale lattice mast incl. warm white LEDs and suitable series resistors

Soldering skills are mandatory for the functional assembly of the lighting elements.

You should also be familiar with connecting LEDs to your model railway circuit and be able to connect the required on/off switches.

Item/Variant	Price/Item-#
bracket, curved, etched kit incl. filigree insulator replica, 1 pc.	EUR 3,00 Nm-Y00111
bracket, straight, etched kit incl. filigree insulator replica, 1 pc.	EUR 3,00 Nm-Y00112
mast bracket, modern, pulling inwards, etched kit incl. insulators, 1 pc.	EUR 3,00 Nm-Y00113
bracket, modern, pulling outwards, etched kit incl. insulators, 1 pc.	EUR 3,00 Nm-Y00114
bracket for catenary, cross wire or fixed point, 10 pcs, etched kit	EUR 1,45 Nm-Y00119
cross beam modern, rectangular, etched kit, length 69mm	EUR 5,05 Nm-Y00130
cross beam modern, rectangular, etched kit, length 98mm	EUR 6,25 Nm-Y00131
cross beam modern, rectangular, etched kit, length 157mm	EUR 7,45 Nm-Y00132
feeder line holder, 1-pole, etched kit incl. filigree insulator replica, 6 pieces	EUR 3,10 Nm-Y00151
feeder line holder, 2-pole, etched kit incl. filigree insulator replica, 6 pieces	EUR 4,70 Nm-Y00152
cable holder in crossspans, etched kit, incl. insulator reproduction, 10 pieces	EUR 2,50 Nm-Y00153
main suspension support/attachment in the crossbar, incl. filigree insulators, 1 pc.	EUR 3,30 Nm-Y00157
H-profile mast, 1,5x1,5mm, incl. base and screw, 60mm high	EUR 2,65 Nm-Y00161
H-profile mast, 1,5x1,5mm, incl. base and screw, 70mm high	EUR 2,75 Nm-Y00162
contact wire holder, etched kit incl. filigree insulator replica, 6 pieces	EUR 3,00 Nm-Y00165
mast transformer, etched kit incl. filigree insulator replica, 1 piece	EUR 3,70 Nm-Y00172
signal panels for front and side mounting, etched kit, 6 pieces	EUR 2,75 Nm-Y00173
signal boards decal set for Nm-Y00173, 3 variants available, 24 decals in the set	EUR 1,80 Nm-Y00174
modern track field light, kit for mast or crossspan, incl. white LEDs, 2 pieces	EUR 10,70 Nm-Y00179
historical crossspan, etched kit incl. insulator replica, 3 versions constructible	EUR 11,30 Nm-Y00235
cable holder for historical crossspan, etched kit incl. filigree insulators, 4 pieces	EUR 3,00 Nm-Y00250
lattice mast, 1,2x1,8mm, incl. base and screw, 60mm high	EUR 5,05 Nm-Y00261
lattice mast, 1,2x1,8mm, incl. base and screw, 70mm high	EUR 5,35 Nm-Y00262
catenary wire holder for lattice masts, etched kit incl. filigree insulators, 6 pieces	EUR 3,00 Nm-Y00265
old track field light, kit for mast or crossbar, incl. warm white LEDs, 2 pieces	EUR 10,10 Nm-Y00279
old mast luminaire for lattice mast, kit incl. warm white LEDs, 2 pieces	EUR 8,90 Nm-Y00280
