### PIRATA

Pirata has already delivered the first type A-(WR-S)-1223 dining cars after the informal announcement via eMail. Today we present the model to you in detail.

We have a limited number of these in stock. The offer is only valid while stocks last!

We offer the dining car in standard and narrow gauge versions.

### model

Pirata has realised the prototype very nicely and the visually easily recognisable differences also in the model.  
The two pictures on the left show the N and the Nm model, each from a different side, so that you can easily follow the changes.

- 1st - the lettering was changed to A(WR-S) 1223.
- 2nd - the restaurant sign has been printed on each side. It is positioned differently on each side, which is also exactly exemplary.
- 3rd - the "kitchen" of the dining car was placed at one end of the car. The windows are accordingly backed with a red foil. Please also note our small photo below, there you can see very nicely that the colour is very close to the prototype. On the product pictures the colour looks too bright because of the reflection of the windows.

The modifications of the interior have not been modelled. If you would like to reproduce the detachable tables, you should cut a suitable white polystyrene profile to length and glue it in place.

### RhB A-WR-S1223 dining car PI-9201.Nm

Art.-Nr./item-no./produit-no.

Makeshift dining car based on the EW I  
repainting by Pirata
