MDS has kept its customers on tenterhooks, but now they are finally here: the sliding wall carriages announced at the 2020 toy fair.

All models are in stock.

It is pleasing to note that all pre-ordered models can be delivered at the prices announced at the time, despite significant price increases in recent years.

In addition to the goods wagons, the locomotives are also arriving. We will report on this as soon as they are available.

new Prices!

MDS has already announced that there will be new prices for the models.

Orders which receive us at 29.11.24, 10.00 a.m. latest, will still be invoiced at the old prices.

Offer subject to change.

Conversions

The freight wagons can be relatively easily re-gauged from 9 to 6.5 mm using exchange wheel sets. You do not have to do any milling work! Old wheelset out, new one in - finished!

We also change the coupling from the N standard to the Kato short coupling. The material is already included in the respective prices.

On express request, we can also convert the narrow-gauge models to the MTL coupling.

The exchange wheel sets are easy to run. It can occasionally happen that a wheelset falls out of the axle bearings, as MDS has also used longer axles for the N gauge on these N models than on the first series. Should this happen to you, please contact us. If required, we also have replacement bogies in stock for a fee.

Deliveries

We have some models in stock. Any additional requirements are regularly reordered from MDS.

Deliveries are made in the order in which orders are received.

Orders from the above-mentioned date (29th November 2024, 10.00 a.m.) will be invoiced at the new prices.

We publish current prices on our website at www.n-schmalspur.de.
